

In Our Hearts

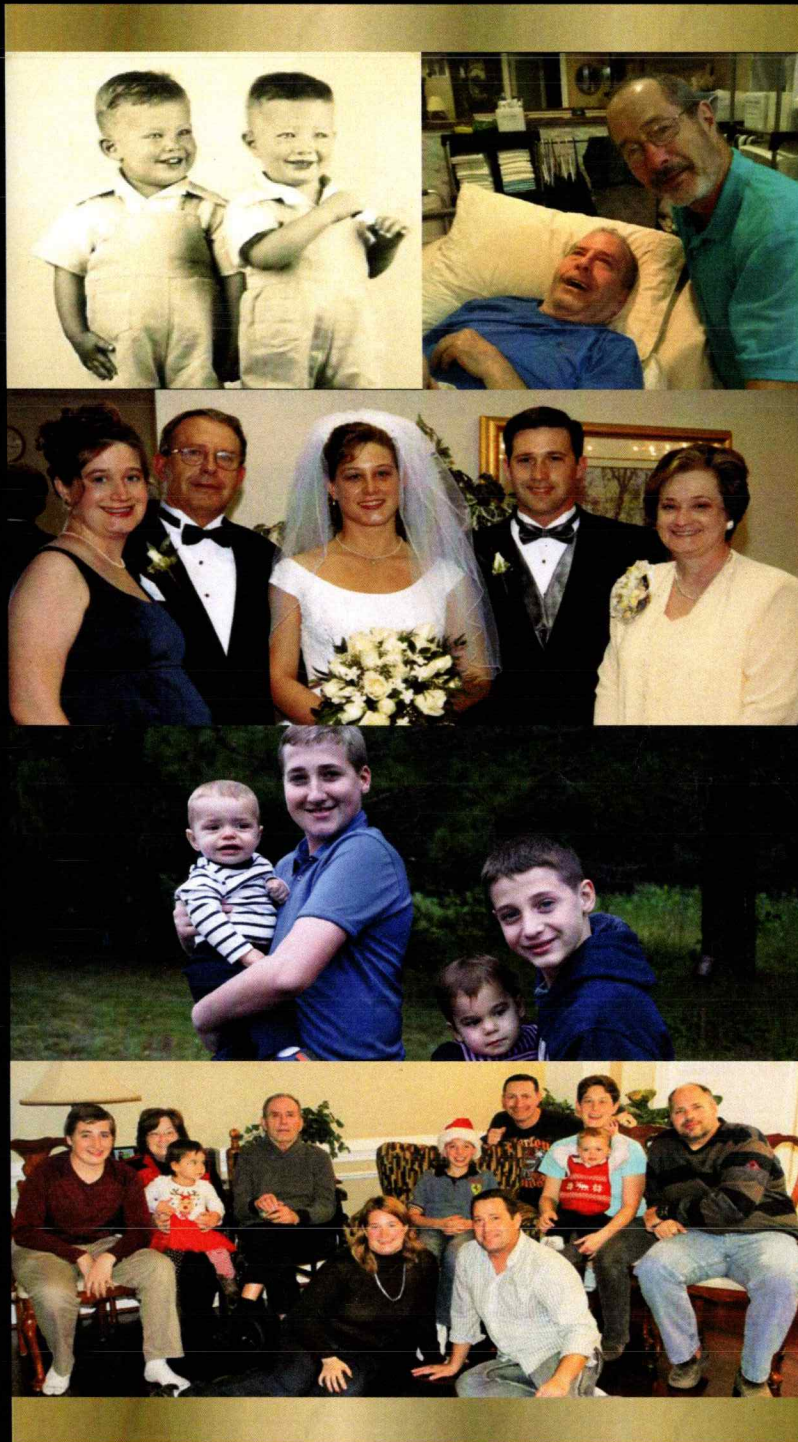

David

We thought of you with love today,
But that is nothing new.
We thought about you yesterday,
And days before that too.
We think of you in silence,
We often speak your name.
Now all we have are memories
And pictures in a frame.
Your memory is our keepsake,
With which we'll never part.
God has you in His keeping,
We have you in our hearts.

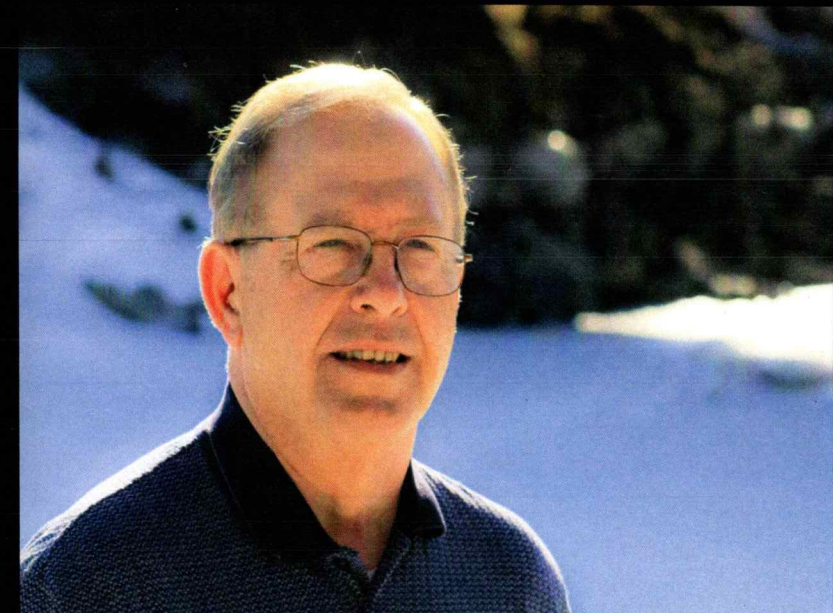

Thank You

We would like to express our heartfelt gratitude for your expression of love and kind words. Your comfort and sympathy will always be remembered. We are incredibly grateful for your kindness.

Obituary

David R. Wood, age 73 was born in Pueblo, Colorado on November 1, 1948. He passed away at his home in Ashburn, Virginia on December 13, 2021. He is survived by his wife Gayle (née Sweet), son Ryan Wood, daughters Janie (Calvin) Kenney, Melissa (Charles) Mangum, brother Donald (Bonnie) Wood, and grandchildren Aidan and Zachary Kenney, Cassidy and Wesley Mangum. He is also survived by sisters-in-law Deana Salkeld, Laurie Sweet, brother-in-law James (Stacey) Sweet and many nieces and nephews.

David was preceded in death by his parents Herschel and Barbara Wood, nephew Wesley Wood, and brothers-in-law Bradley Sweet, Joseph Salkeld.

David was employed by ExxonMobil Corporation for nearly 30 years. He supported operations both in North America as well as the global stage. He opted for an early retirement to spend more time with his children, grandchildren, and to take on leadership positions with several volunteer organizations where he could make a difference in our community and country. David spent 10 years volunteering for Habitat for Humanity. He helped rebuild homes after Hurricane Katrina and helped

rebuild homes for the elderly in Tennessee, Washington DC, Maryland, North Carolina, and Virginia.

One of his greatest joys was remodeling residences for recovering soldiers and their families at Walter Reed National Military Medical Center in Bethesda, MD. He spearheaded the funding campaign for the remodeling projects as well as creating a playground for the recovering service member's children. He also volunteered at either the Fairfax Western Ministries food bank program or male adult homeless shelters in northern Virginia or Washington DC.

David suffered from acute hearing loss most of his life. Upon retiring, he volunteered to be a part of an FDA research program for internally implanted hearing aids. The research was successful for David, the program, and many people around the world.

To help others, David donated his brain to Georgetown Medical Brain Research Program. His goal was to help find a cure and prevent unneeded suffering for others. David is sincerely loved by many and will be deeply missed.
